General Information

Except as specifically provided for hereinafter, the Laws of Cricket (2018 Code) and any subsequent changes shall apply to all matches. Where applicable, ACA Bylaws shall also apply.

The Tournament Referee shall rule on any matter relating to the enforcement or interpretation of these playing conditions and their decision shall be final. Details of any disputed matters shall be recorded in any Tournament Report.

Any disputes concerning results and associated matters shall be referred to and be resolved by the Tournament Referee whose decision shall be final and binding.

Eligibility

To be eligible for the tournament all players must be Under 15 on September 1 2018 and must have been playing regularly in the ACA or College Sport Auckland Competitions.

Selection of younger players is at the discretion of clubs.

Players who played junior cricket in ACA junior competitions (Year 6 -Year 8) must represent the club that they played most of their junior cricket with. If the number of years played for two or more clubs is equal, the club a player can choose which club they identify as their club of origin. Players who did not play junior cricket, must represent the club they first played for in an ACA youth club competition. The current club of a player does not matter for eligibility for this competition. Any other players who do not meet eligibility requirements will need to apply for ACA dispensation to be allowed to play. Dispensations will be considered when a player has moved home a significant distance where it is not practical to play for their original club of origin e.g. a player moves home from Orewa (Hibiscus Coast CC) to Papatoetoe (Papatoetoe CC) would receive a dispensation to play for Papatoetoe and also Manukau.

Squad Size & Composition

Matches will have 11 players batting, and 13 players eligible to field/bowl to manage total number of overs bowled by medium/fast bowlers over the Tournament (max 11 on field).

Players are not allowed to be moved between squads within the same tournament.

Weather Interruptions

In the case of bad weather, all matches on that venue shall cease at the same time and umpires will report to the tournament manager for information on the resumption of play.

The tournament manager may at his/her sole discretion, decide whether all games will resume at the same time or as the pitches become available.

Where weather conditions seriously impact upon the tournament, the tournament manager has the right to amend the tournament structure and playing conditions.

Declared a draw if 5 overs for T20 and 15 overs for Limited Overs in each innings is not possible due to weather conditions. If weather interferes with play, the number of overs in the match shall be reduced by one over for each complete four minutes of playing time lost, counting back from 20 or 40 depending on the format.

If an interruption occurs in the innings of the team batting second, its target score shall be calculated by using the DLS method as calculated by CricHQ.

The tournament manager may direct a change of venue due to weather or ground conditions.

Tournament Winners

The winner of the tournament shall be determined by the outcome of the championship final match. If the match is unable to be completed, or is a tie, the two teams competing the final shall be declared joint winners.

- 16th to 18th January (Rain day 21st) – 8 Artificial Pitches Days 1-2 – Huapai and Mt Wellington.

| Result Type | Points |
|--------------------|---------------|
| Win | 3 |
| Tie/No Result | 1.5 |
| Loss | 0 |

In the event that two or more teams have the same number of points, the higher placed side shall be determined by Net Run Rate (NRR).

In the event that NRR is also equal, the higher placed side shall be the team that had the most victories over the teams with which it was tied.

Where this method does not provide a superior side, a bowl-off shall be organised by the tournament manager.

Net run rate

If a net run rate is required to assess a team's placing in a competition, or for any other reason, the net run rate shall be calculated as follows:
